CM/6.1/19.12 International Women’s Day 2020 and Oral History Project (A06/1761)

MOTION / DECISION

Mover: Cr Masselos  

That Council:

2. Commences an oral history project of women councillors who have served on Waverley Council since its proclamation, and that:

   (a) Documents the women's stories of achievement, challenges, successes and insights.

   (b) Photographs the women.

   (c) At the IWD Cocktails and Conversations event, an announcement is made that this project will be exhibited at a curated event by July 2020.

3. Notes that the project is to be resourced internally and within operational budget.

Background

In 2019, Council celebrated International Women's Day with a Cocktails and Conversation event at the Bondi Pavilion. This event was a huge success with over 200 women in attendance to hear high-profile
Aboriginal women’s stories of empowerment and achievement. Given the number of accomplished women in the Waverley local government area, celebrating IWD 2020 would be expected of a progressive Council.

To coincide with IWD 2020, an oral history and photographic exhibition of the Waverley councillors celebrated in the 100 years of women project is to be undertaken by Waverley Library and Communications staff. The interviews should focus on the achievements of these women, highlighting:

- Some key moments in the history of Waverley and their role in these events.
- Insights into the challenges and role of elected women in local government, their experiences and learnings.
- Leadership and empowerment of elected women in local government.

The exhibition is to be curated and included as part of the celebration of IWD. After the exhibition, a space is to be found within Waverley’s civic buildings where this exhibition can be permanently displayed.

   (b) Supporting the State-led development of priority infrastructure and other local government projects needed to deliver regional-scale plans, particularly where a market failure has been identified.

   (c) Support to prioritise recycled materials in procurement by all levels of government, to help create new markets.

3. Recognises initiatives and projects taken within the Waverley local government area to help achieve this goal, including:

4. Writes to the local State Members, the Hon. Gabriel Upton, MP, Member for Vaucluse, and Marjorie O’Neill, MP, Member for Coogee; the Minister for Energy and Environment, the Hon. Matthew Kean, MP; the Local Government Minister, the Hon. Shelley Hancock, MP; the NSW Treasurer, the Hon. Dominic Perrottet, MP; the Premier, the Hon. (a) Confirm support for recycling and outline the urgent need to educate, innovate and invest in local and regional waste and recycling programs and infrastructure via the Waste Levy.

(b) Fund councils to develop regional-scale plans and projects to effectively address the management of waste and recycling.

(c) Seek a commitment from the State Government to lead and fund the development of priority waste and recycling infrastructure, particularly where a market failure has been identified.

5. Advises LGNSW President, Linda Scott, of the passage of this Mayoral Minute.

6. Shares and promotes the Save Our Recycling campaign via its digital and social media channels and via its networks.

Background

Local Government NSW’s report, At the Crossroads: The State of Waste and Recycling in NSW highlights the need for the local government sector to support the Save Our Recycling campaign.

The NSW Government collects revenue from licensed waste facilities in NSW via a Waste levy to discourage the amount of waste being landfilled and to promote recycling and resource recovery. According to the latest NSW Budget papers, this totalled $772 million in 2018–19.

Revenue from the Waste levy is expected to increase by about 70 percent from 2012–13 to 2022–23. By the end of this period, the Waste Levy revenue is forecast to have increased to more than $800 million a year: $100 for every woman, man and child in NSW. Yet, only a small portion—less than one fifth—of this revenue is invested back into waste and recycling programs.

The NSW Government promised a major education campaign to help support kerbside recycling in 2015. However, this has not been delivered. A Waste Infrastructure Plan and a new State Waste Strategy are also overdue.

The Government is also likely to miss key targets in its existing Waste Avoidance and Resource Recovery Strategy 2014–21. Its latest 2017–18 Progress Report shows that in NSW:

- Household recycling rates are decreasing.
- Less waste per person is being diverted from landfill.
- The amount of waste being generated is expected to grow by 36 percent by 2036—which is well above population growth.
Recent decisions by China and other countries to put in place measures to stop the importation of recyclables from countries like Australia are also making it more challenging to find markets for recycled materials.

The combination of a lack of funding, planning and action has left our state-wide waste and recycling systems in a poor state.

Local councils in NSW are advocating for the NSW Government to invest the funds collected from the Waste Levy to address the current state of waste management in NSW.

The Local Government NSW Save our Recycling campaign outlines ways the State Government can work with councils to develop, fund and deliver the waste and recycling programs our communities deserve. It is a blueprint for the NSW Government to reinvest the money it collects from the Waste Levy to help fix the State’s ailing waste and recycling services and build a circular economy in NSW.

The Save our Recycling campaign focuses on the following key areas for NSW Government action:

- **Education**: fund a large-scale, state-wide education campaign to support recycling and markets for recycled products in NSW. The NSW Government must fund and work with councils to activate this campaign, community by community.

- **Innovation**: greater use of more recycled content by all tiers of government to help create scale, and then new markets, jobs and investment will follow.

- **Investment**: reinvest the Waste Levy in council-led regional waste and recycling plans and fund councils to deliver the infrastructure and services our cities and regions need.

In 2018, delegates at the LGNSW 2018 Conference unanimously voted to call on the NSW Government to reinvest the Waste Levy in recycling and waste infrastructure and programs. The 2019 Conference further supported this approach, outlining specific solutions to the waste and recycling crisis that could be delivered in partnership with local government. The proposed solutions are outlined in the wording of this Mayoral Minute, and include:

- **State Government Funding** to support regional waste plans for the future of waste and resource recovery.

- **State Government Funding** for priority infrastructure and local government projects necessary to deliver these regional-scale plans, particularly where market failure has been identified

- **Increased local and state government procurement of recycled goods made with domestic content**; for example:
  
  - Recycled content targets to help drive demand and provide incentives to deliver on these targets.
  
  - Research, develop and deliver recycling technologies and products generated from recyclables, particularly by local or regional councils.

This Mayoral Minute recommends that Council supports the Save our Recycling Campaign, which is being coordinated on behalf of councils by LGNSW.

time limited for postal vehicles, or converted to post boxes without mail zone signage.

(d) Ensuring future Waverley Traffic Committee report proposals identify opportunities to minimise on-street parking loss and, where possible, increase on-street parking.

(e) Time-limiting funeral and wedding parking, or other options, to release on-street parking to the community when funerals and weddings are not taking place.

2. Officers institute changes as opportunities arise.

3. Notes that the investigatory work required in clauses 1(c) and 1(e) above is relatively simple, low cost, and can be performed with existing staff resources, further noting that proposals would be referred to the Waverley Traffic Committee.

4. Notes that the requirement in clause 1(d) to ensure on-street parking consideration should be current practice for any Waverley Traffic Committee report.

5. In the interim, noting the General Manager’s comment about the lack of available permanent staff resources to perform the full extent of the required investigation in clause 1(a) at this time, considers short-term parking outcomes that can be achieved easily and simply, with minimal funding and little effort by staff resources and, in this regard, invites Councillors, Waverley residents and other interested parties to suggest locations where on-street parking may be improved. Council officers would briefly assess these suggestions and determine what can be investigated now and what should be deferred to a later time when permanent staff resources become available.

9. Questions with Notice

CM/9.1/19.12 Policies and Strategies (A09/0450)

QUESTION

The following question was submitted by Cr Nemesh:
1. How many current Council-approved policy or strategy documents does Council have?

2. How many current Council-approved plan documents does Council have?

3. What percentage of the above documents is mandated by the State Government and what percentage has been generated by Council?

**General Manager’s answer**

The General Manager has recently reviewed Council’s processes for managing policy work, which was largely neglected during the amalgamation period. This review includes an assessment of the status of all Council’s policy documents, which is currently being undertaken by Directors. Following this work, all Council policy documents will be gradually reviewed and updated and reported to Council as necessary.

Currently, Council’s website contains:

1. 37 Council-approved policies and seven Council-approved strategy documents.
2. 33 Council-approved plans.

Regarding clause 3:

- 29% of Council-approved policies are mandated by the State government.
- 42% of Council-approved strategies are mandated by the State government.
- 36% of Council-approved plans are mandated by the State government.

The General Manager will be in a position to respond in more detail to this question early next year once the above work is further progressed.
