CM/6.1/20.02 Community Resilience and Social Inclusion in Waverley (A20/0146)

MOTION

Mover: Cr Masselos

That Council:

1. Notes the Directions for Resilience framework set out in the Sydney Resilience Strategy, namely:
 - (a) People-centred city.
 - (b) Live with our climate.
 - (c) Connect for strength.
 - (d) Get ready.
 - (e) One city.
2. Notes that officers are working on a range of initiatives that address the framework and asks for a progress report on this work to be provided to Council at the appropriate time.
3. Notes Council's existing commitment to fostering and maintaining an inclusive community in which all people from diverse backgrounds feel able to connect, participate and thrive and are free from discrimination on the basis of culture, ethnicity, race, religion, disability, gender or sexual orientation.
4. Notes that Council plays an important role in developing community capacity and strengthening networks by supporting volunteering and community development services and activities.
5. Notes that research underpinning the Resilient Sydney Strategy identifies that the leading factor in influencing how resilient cities and communities are to shocks and stresses is the level of connectedness and social inclusion within those communities.
6. Notes the work of the Multicultural NSW's COMPACT Program, which identifies inclusion as key in building community resilience and connectedness in multicultural communities, which, in turn, is

central to fostering positive participation in society and addressing issues such as countering violent extremism.

7. Asks officers to provide a scoping report that addresses:
 - (a) Defining what social inclusion and community connectedness mean at a local government level (this definition must consider diverse communities within the Waverley local government area).
 - (b) Better understanding the role of local government in building connected, socially inclusive and resilient communities.
 - (c) Assessing the steps Council could take to further develop or integrate social inclusion and community connectedness into existing programs in Waverley.
 - (d) Any requirements for additional resources Council may need to advance this work, with consideration to be given for resourcing and enhanced projects as part of the Social Sustainability Strategy currently under development (for June 2020) and as part of the 2020–21 budget.
 - (e) The potential for external sources of funding that could contribute to such a program.

Background

Resilience is increasingly becoming a central concept in planning for the future of cities and communities. Impacts from the recent bushfires and flooding, and conversations about how to address and cope with the impacts of climate change, have brought the concept into everyday thinking.

Greater Sydney has been among those seeking to build resilience in its urban form and communities. A Resilient Sydney Strategy was launched in 2018 from a collaborative effort between the councils, relevant government entities, business partners and 100 Resilient Cities/the Rockefeller Foundation.

The strategy sets out five directions for building resilience in Greater Sydney:

1. People-centred city – meaning planning for the future in a way that places people at the centre of planning and infrastructure, and addresses inequality and differential opportunity across the city.
2. Live with our climate – planning and taking action to adapt to heat and changes in climate (e.g. urban greening).
3. Connect for strength – working to ensure there are connections between people and enhanced (rather than declining) social inclusion.
4. Get ready – emergency preparedness arrangement including working to increase community understanding of resilience and preparedness.
5. One city – working to ensure joined up and collaborative governance in the context of multiple agencies with planning and decision-making roles in Sydney.

Officers are working to embed this approach within the Council's planning and operations. Some examples: people-centred planning is central to the Local Strategic Planning Statement body of work. Staff in the Environmental Sustainability team are working on environmental and climate change risk assessment work to inform council planning, programs and operations work. Staff are revising our approach to local emergency operations and looking to work more closely with other councils and agencies. And in infrastructure risk management, a Flood Study is being undertaken to inform Council investment in resilient infrastructure and neighbourhoods.

Community connectedness and social inclusion is an area where it would be useful to undertake further

work. Waverley, and Australia more broadly, is a diverse, multicultural society that is home to indigenous Australians and people from across the globe. Our communities are home to people with a wide variety of cultural, ethnic, racial and religious backgrounds and traditions. This is a strength, and contributes to the modern, cosmopolitan, world leading city-region that Sydney has become.

That diversity can, if allowed, bring challenges in terms of connectedness and inclusion within communities. If people are excluded from participation in social and economic life because of difference, negative outcomes can occur. These outcomes can manifest in socio-economic, health and wellbeing indicators, crime and anti-social behaviour, a breaking down of accepted societal norms, and, in the extreme, in the development of fertile ground for violent extremism to become an attractive outlet for the disaffected.

There is a variety of research that points to social inclusion and connectedness as being important in the resilience of communities. As an example, work underpinning the Resilient Sydney Strategy points to social inclusion and connectedness as being key determinants of a city's level of resilience to shocks and stresses. The ability of people to rely on and gain assistance from their own community networks to cope with and bounce back from stresses such as summer heat waves or shocks (such as flooding or bushfires) significantly affects how well a community or city will deal with negative events and pressures. Similarly, work in the multicultural area highlights the importance of connectedness and inclusion in fostering positive participation, and a sense of ownership, in society. This has been recognised by various government authorities as key in improving social outcomes, including in areas such as countering violent extremism.

Local government has the potential to play an important role in fostering inclusion and connectedness. Waverley Council has a good record in providing community development services and supporting volunteerism, both of which help build inclusion. However, there is potential for us to do more.

As Mayor, one of my priorities is to look at ways Council can work to further enhance connectedness and inclusion. I am very cognisant of the significant workload Council has before it, so I would like to have this potential area of work examined and scoped to ensure that any initiatives that might be worth pursuing can be properly planned and adequately resourced within with the overall work program and Council's policy framework. I seek your support for the foregoing Mayoral Minute accordingly.

AT THIS STAGE IN THE PROCEEDINGS, THE FOLLOWING PROCEDURAL MOTION WAS MOVED BY CR GOLTSMAN AND SECONDED BY CR BURRILL:

That debate on this item be adjourned to the March Council meeting.

THE PROCEDURAL MOTION WAS PUT AND DECLARED LOST.

 8. Asks officers to provide a scoping report that addresses:

CM/6.2/20.02 Privatisation of Management of Buses (A03/0189)**MOTION / DECISION**

Mover: Cr Masselos

That Council:

1. Notes resolution PD/6.1/19.11 on the privatisation of region 9 bus services.
2. Notes that the bill to privatise these remaining services will be before Parliament in the very near future.
3. Reaffirms Council's position, with the Mayor again writing to the Premier, the Hon Gladys Berejiklian, MP; the Minister for Transport and Roads, the Hon Andrew Constance, MP; the Member for Vaucluse, the Hon Gabriel Upton, MP; the Member for Coogee, Marjorie O'Neill, MP; and the Leader of the Opposition, Jody McKay, requesting the government to honour its pre-election commitment given on 20 March 2019 not to privatise the remaining bus regions 7, 8 and 9.

Background

On 24 October 2019, the NSW Government announced it would be privatising the remaining bus regions 7, 8 and 9 in spite of the Premier promising on 20 March 2019 that no further bus regions would be privatised.

While the Minister's press release says the reform was designed to ensure the best outcomes for customers and staff, experience with the Hunter and region 6 privatisations shows the exact opposite. In fact, region 6 has failed to ever meet its on-time running KPI. The state's transport agency has shown that the punctuality of buses has worsened since the privatisation. Further evidence in region 6 and Newcastle reveals that routes have been cut, stops have closed and workers' conditions have plummeted.

The Minister goes on to say that bus patronage has increased by more than 50% over the past six years.

Waverley LGA residents are highly supportive of public transport. They are high users of public transport and, in particular, buses, as evidenced by the response to the recent 'Bring Back the 378' activities.

Council's People, Movement Places Policy supports the role of public transport in making the Waverley LGA more walkable and safer for pedestrians, while addressing the reduction of traffic congestion.

THE MOTION WAS PUT AND DECLARED CARRIED ON THE CASTING VOTE OF THE CHAIR.

Division

For the Motion: Crs Copeland, Keenan, Masselos, Wakefield and Wy Kanak.

Against the Motion: Crs Betts, Burrill, Goltsman, Kay and Nemesh.

9. Questions with Notice

CM/9.1/20.02 On-street Parking Losses (A15/0235)

QUESTION

The following question was submitted by Cr Nemesh:

Since October 2017, how many on-street parking spaces within the local government area have been removed by Council?

General Manager's answer

Council does not keep integrated records of car park space removals. It has not been possible to undertake a full detailed staff review of all records due to current staff shortages and backfilling with temporary staff; however, an accurate estimate has been made. A detailed analysis of relevant records could be undertaken, but would take a staff member four to six weeks to complete. It is anticipated that staffing issues will be resolved by March and the analysis could be undertaken at this time. However, the estimate below is believed to be accurate.

Staff estimate that on-street parking spaces removed by Council since October 2017 are:

- Seven Ways Streetscape upgrade: four parking spaces.
- Bronte Cutting Trial (temporary removal pending trial outcome): 20 parking spaces.

Future capital works projects, such as the South Bondi Amenities project, will likely result in 16 car park losses.

While not as a result of a Council resolution, on-street car parking spaces can be affected by residential development applications that are approved by Council officers (or planning panels) under the law and delegation. This number can vary from year to year, and would take a review of all development approvals to provide an accurate answer. It is not proposed that this work be undertaken at this time.
